Energy of Canada Ltd.

This was a major challenge for me as my mission as Public Relations Officer was to develop a program on the Peaceful Uses Of Atomic Energy and deliver it across Western Canada from Fort William/ Port Arthur to Victoria to dispel the old images of Atomic Energy of Hiroshima and Nagasaki to gain acceptance of Nuclear Research in Western Canada. One year I spoke to 100,000 students in Western Canada and spoke to all the media and a lot of the service clubs.
