Mukesh Ambani Quotes

Mukesh Ambani (born April 19, 1957, in Aden, Yemen) is an Indian business mogul who serves as chairman and managing director of the Indian conglomerate Reliance Industries Limited (RIL), a multinational

conglomerate with businesses across sectors such as petrochemicals, energy, textiles, retail, and telecommunications. With a net worth of \$119.5 billion as of October 9, 2024, Ambani is Asia's wealthiest person. He ranked among the top 10 wealthiest people in the world on Forbes magazine's annual list of billionaires in 2021, 2022, and 2023.

In the journey of an entrepreneur, the most important thing is self-belief and the ability to convert that belief into reality.

All of us, in a sense, struggle continuously all the time, because we never get what we want. The important thing which I've really learned is how do you not give up, because you never succeed in the first attempt.

I am a big believer that whatever has gone lies in the past. You should only learn from it, and you should only look at the present and the future. That's been my father's philosophy and mine as well.

Mukesh Ambani Quotes

I think that our fundamental belief is that for us growth is a way of life and we have to grow at all times.

I personally think that money can do very little. And this has been my experience all across.

Our established businesses of hydrocarbons, energy, and petrochemicals pretty much run on their own, with their own proven leaders. This has helped me focus almost exclusively on two things: Firstly, new businesses. And secondly, institutionalizing what I call the Reliance Management System.

My big advantage was to have my father accept me as first-generation.

Essentially, whoever is successful, whoever is going to do things that make a difference, is going to be talked about.

Mukesh Ambani Quotes

My obsession is with technology and how it can improve human life. In my view, what we have seen in the last 300 years is only a trailer.

I am personally a big believer that technology is the biggest driver of human development, and if you can use technology to benefit people, then that's the best business you can have.

Everybody has equal opportunity, and I think that is true for everything.

BrainyQuote®

If there are some losses that you take, then we're all big boys - we shouldn't be crying.

The organizational architecture is really that a centipede walks on hundred legs and one or two don't count. So if I lose one or two legs, the process will go on, the organization will go on, the growth will go on.

Mukesh Ambani Quotes

I generally think that I should only speak by action and not by words.

For my father, life was uni-dimensional. Reliance was his life. Yet, some of my most vivid memories are about spending time with him. However busy he may have been, whatever the pressure, Sunday was for his wife and kids. I try to do the same with my family.

Mobile internet will be the single-most defining technology of this century for human development.

Nobody had anticipated that chemicals was the direction in which Reliance was headed. I did chemical engineering because it was supposed to be the future.

All of us know that the energy from the sun can now be harnessed, and we need to convert it sensibly to use it

Your Participation in THIS Legacy Project

For anyone who assists in this MANITOBA NEIGHBOURS Mission, it automatically becomes your Legacy. You will be making an enormous difference in people's lives, through which we leave a Legacy of your involvement and contribution. It really is neighbours helping neighbours. A feel good mission where you indeed make a difference that keeps on Giving over the years - even when you and I are gone, your Legacy lives on.

You help, you participate, you get involved, at the Legacy contribution level you feel comfortable with and matched with your blessings in life. This can be your way of sharing good will.
